

WHOLE HOUSE / OFFICE AIR STERILIZER

DON'T PURIFY THE AIR - - STERILIZE IT!

Viruses · Fungus · Mold · Variety of Living Bacteria · Dust Mites · Odors · Mildew
 · Small Pox Anthrax · Tuberculosis · E-Coli · Staff · And Many More

CaluTech

An Inexpensive Solution To Indoor Air Pollution

Canadian scientists found that this UV light technique reduces overall employee sickness by about 20%. UVGI, or ultraviolet germicidal irradiation, is often used in hospital ventilation systems to disinfect the air but is rarely used in building air ducts. Now you can have ultraviolet sterilization in your building...

Uses Ultraviolet Light To Sterilize and Destroy Living Bacteria, Viruses, Mold, Mildew & More!

A Scientifically Proven Technology That Works!

Breathe With Confidence Enjoy The Benefits of the **Germicidal Light UV Air Purifier**

- Effective on bio-terrorism
- So effective it's a requirement in all new government buildings
- Sterilize the air you breathe

U.S. STANDARD FOR GOVERNMENT BUILDINGS:

"Ultraviolet light (C band) emitters shall be incorporated downstream of all cooling coils and above all drain pans to control airborne and surface microbial growth and transfer"

"...for innumerable molds, fungi, and bacteria, home sweet home is a series of drain pans in the ventilation system. If they aren't kept clean the biological agents can proliferate and travel through the building air currents"
 - Health Magazine

"Keeping coils sanitary through cleaning and the application of chemicals or UV lights is part of a system-wide approach, which can prevent spores from amplifying in the heating and air conditioning system"
 - ACHR News

"Common harmful molds can be found in A/C systems including Aspergillus, Penicillium, and Cladosporium"
 - Centers for Disease Control

Air Duct Mounted UV Air Purifier

System Available for

- Homes
- Apartments
- Condo's
- Business

Mounts
 On The
 Air Duct

- Saves energy by increasing air flow
- Eliminate coil cleaning expenses
- Our units are used by the United Nations

Dual Ultraviolet Double Tube Lamps Offer Intense Air Sterilization
 For Maximum Efficiency & Air Cleaning
